

## Application Engineer (m/f/d) primtech 3d

entegra GmbH is an owner-managed, internationally active software company based in Ettlingen near Karlsruhe. Flat hierarchy, self-responsibility and a strong team spirit are the maxims in our company. Everyone knows everyone, and everyone knows their tasks and goals. This, coupled with personal commitment, a cooperative feedback culture, as well as fascination with technology, are what bring us joy in what we do and is the foundation for our success. primtech is a 3D BIM software - integrated in AutoCAD - for design and engineering of high voltage substations. In cooperation with our partners, we distribute primtech worldwide and provide local support to companies. Our customers include power utilities all over the world as well as internationally active engineering companies and substation constructors. In order to expand our market-leading position and achieve our expansion goals, we are looking for someone to complement our team.

### Your role

---

- Provide technical customer care and support of the product primtech 3d
- Present our software solutions to our customers at conferences and exhibitions
- Support our software development through tests and technical consulting
- Provide training of our primtech solution worldwide

### Our requirements

---

- Very good CAD knowledge
- Enthusiasm for IT topics as well as enjoying customer and solution oriented work
- Initiative, dedicated and independent way of working
- Proficient in English, Skills in German are of advantage
- Successfully completed university degree in a technical field
- Good knowledge and experience in substation design
- Valid German work permit

### What we offer

---

- A long term employment in a dedicated team
- An interesting and diverse job in a productive and highly motivated team
- A pleasant working atmosphere, characterized by an open, respectful and employee-centric communication
- Modern work conditions, flat hierarchy
- A well-managed company with the best of references

**Do we have your attention?** We are looking forward to receiving your application including your salary expectation and the earliest date you can join our team. For more information, please contact Mr. Appel at +49 7243 76 24 0.
